FYI --- Marcus ended up being taken off the CCAC Science Adv Panel mtng agenda - we had asked that he be given a presentation role, if they wanted him to speak, but not as an overall facilitator of recommendations, etc. We're actually fine with this outcome – he'll be there and able to chime in and ask questions in multiple ways and he's not put in an awkward spot.

Dear Workshop Participants,

We are looking forward to your participation and contribution to the forth coming CCAC SAP Expert Workshop on "Metrics for Evaluating and Reporting on Black Carbon and Methane Interventions".

In preparation for the workshop, please find attached the following documents:

1. Final workshop agenda
2. Workshop logistic and information note
3. Participants list

The above documents as well as the workshop background papers, listed below, can be accessed from this dropbox link: <https://www.dropbox.com/sh/dcu0qzumv12j0g/AAA7iBggF8906GluYmaFDe8fa?dl=0>

1. Review of recent publications on methane and black carbon emissions and impacts
2. CCAC/SAP paper: good practices for quantifying, estimating, and reporting on SLCP interventions
3. A pathway to the target paper
4. SLCPs and SDGs paper
5. CCAC/SAP paper: an overview of black carbon policy framework
6. Brief on quantification methodologies for black carbon reduction benefits
7. Collection of publications on metrics

For those that will be joining us via video-conference, I will be sending the connection details very soon.

If you are a CCAC sponsored participant and have not received your ticket, kindly let me know so I can follow up immediately.

We look forward to seeing you all in 2 weeks time.

Best regards,

Sunday
